Online Examination Platform

- by Checkerz

Web based system for examining and evaluating students of schools, colleges, universities etc.

What is Checkerz?

- **Checkerz** is a third party Evaluation system for conducting online exams
- **Checkerz** uses futuristic and state of the art examining and evaluating methodology
- Student evaluation is done via a comprehensive and graphical analysis of their subject knowledge and skill based on the online exam results

Why Checkerz ?

- Checkerz will provide the platform for examination at their own cost and infrastructure to the White Label Franchisee
- Checkerz has developed a state of the art online examination tool with detailed and comprehensive evaluation analysis
- Checkerz is user friendly and flexible platform for evaluating students of any class & educational board and geographically neutral

Benefits to Educational Instt.

- **Create your own exams**
 - Schools can create their own exams based on their unique curriculum and examining methodology
- **Evaluate the strength and weakness areas of students**
 - Our detailed evaluation process and reports clearly indicate the subject-wise/chapter-wise weaknesses and strengths of the examinees.
- **Identify areas of improvement**
 - Our detailed results will instantly identify the weak areas of individual students which can be used to focus on those areas leading to a overall good performance of the student

Benefits to Educational Instt.

- **Automatically checked answers**
 - Answers checked automatically and instantly which reduces evaluation time and is more accurate than offline checking. And participants don't have to wait for getting the results of their exams.
- **Group report performance analysis**
 - Having the results and statistics is nice to get a whole overview of the performances. Which users score best? On what kind of questions did users score low at? It's all possible with our platform.
- **Multiple Revisions**
 - Students can take multiple exams for the same subject and follow their improvement on their weak core areas. Management can use these multiple result analysis to provide more help to the students in these area.
- **Evaluate Teachers**
 - The detailed results of the students can be a good indicator of the teacher's performance and can be used for Teacher's evaluation.

Backend - Admin Panel Dashboard

The screenshot displays the Checkerz Admin Panel Dashboard. The interface features a teal sidebar on the left with the following menu items: Dashboard, Language List, Class List, Exam Module (with a red notification badge '3'), Question Module (with a red notification badge '4'), Student List, News Module (with a red notification badge '2'), and Add Broadcast Message. The main dashboard area has a teal header with the Checkerz logo, a 'Welcome User' dropdown, and a 'Logout' button. Below the header, there are six dashboard cards arranged in a 2x3 grid:

- Exam Schedule:** Icon of a document and pencil, with a red notification badge '2'.
- Exam List:** Icon of a clipboard with an 'A+' grade, with a red notification badge '6'.
- Schedule Exam:** Icon of a calendar with a green plus sign.
- Add Question:** Icon of a yellow sticky note with a question mark.
- Question List:** Icon of a question 'Q' and answer 'A' box, with a red notification badge '133'.
- Student List:** Icon of a teacher pointing at a board, with a red notification badge '3'.

At the bottom of the dashboard, there is a teal footer containing the text '© 2018 - Checkerz'.
